

WE NEED YOUR HELP AT GLC!

BE A PART OF THE CHANGE!

A MESSAGE FROM COREY GLC OPERATIONS MANAGER

As we step into the new year, we earnestly seek positive transformations for GLC. The recent years have been emotionally and **spiritually challenging**. In the end of 2020, GLC underwent significant changes, including a shift in management, with my appointment as Chief Operations Officer and Vice President. The station's future hung in the balance, uncertain whether to continue or cease operations.

Having been part of GLC since 1998, I understand its vital role within the community. Believing it was worth saving, I took on the responsibility to navigate its course. Little did I anticipate the hurdles that awaited. Since assuming this role, I've identified and diligently addressed various issues plaguing GLC.

As many are aware, we've been off satellite for a while, leading to our absence on numerous cable systems and affecting our transmitters. Assigned with the task of restoring our signal to the transmitter, despite lacking engineering experience, I persevered and successfully resolved the issue. Additionally, we discovered the loss of our 501(c)(3) status years before my tenure. I've been working to settle back taxes owed and rectify debt, striving to regain good standing with the IRS.

Through **divine intervention and amazing people**, we've paid off taxes, reapplied for 501(c)(3) status, and as of January 29th 2024 we received approval! **This means that ALL gifts are now tax-deductible!** God has sent professional volunteers to assist with IRS and legal matters. We even defied FCC lawyers' expectations by restoring our Snyder transmitter license, proving that **with God, nothing is impossible**.

Despite inheriting a challenging situation, we've made gradual progress. I humbly ask for **your support if you feel inclined to help GLC**. Sustaining the monthly expenses to keep everything operational is a substantial task. This year, I believe we will overcome these challenges and move forward more resilient than ever. Give at glctv.tv!
